Tarun Reddy Babireddy

Software Engineer | Full Stack Developer

tarunreddybabireddy@gmail.com +91 7386378990 Hyderabad,India Linkedin Git

Professional Summary

Full-Stack Developer with **2+ years of experience** designing and developing scalable web applications, REST APIs, multi-tenant SaaS platforms, configurable workflow systems, and enterprise document automation solutions. Proficient in **Node.js, Express.js, React.js, PostgreSQL, Redis, JWT, and OAuth 2.0**, with hands-on experience building secure, high-performance backend services and responsive frontend applications. Experienced in developing end-to-end solutions, optimizing application performance, and delivering scalable enterprise applications in Agile environments.

Professional Experience

Software Engineer – Full stack, Enterpi Software Solutions Pvt. Ltd. Nov 2024 – Present
Project: Expodite – Multi-Tenant Export Management Platform Hyderabad

Project Description Expodite is a cloud-based SaaS platform that streamlines export operations through shipment management, document automation, configurable workflows, and dashboards. The application follows a **multi-tenant architecture** with isolated databases for different organizations.

Key Responsibilities:

- Developed **end-to-end full-stack features** using React.js, Node.js, Express.js, and PostgreSQL.
- Designed and developed scalable **REST APIs** for shipment management, workflows, dashboards, and document automation.
- Built reusable **React.js components, forms, dashboards, and API integrations** for dynamic business workflows.
- Developed **Dynamic Document Builder** and **Dynamic Form Builder**, allowing users to configure documents and forms without code changes.
- Implemented **JWT and OAuth 2.0 authentication and authorization** for secure access control.
- Worked on **multi-tenant architecture** with isolated databases and a shared application codebase.
- Developed **shipment tracking, dashboard, and business workflow** features across frontend and backend.
- Integrated frontend and backend services to deliver **end-to-end business workflows** and seamless data flow.
- Implemented **Excel export, email template generation, and document download** functionality.
- Improved application performance using **Redis caching** and PostgreSQL query optimization.
- Used **ChatGPT and Claude** for debugging, code refactoring, test generation, and performance optimization.
- Collaborated with team members to **analyze requirements, troubleshoot issues, and deliver production-ready features**.

Tech Stack: React.js | JavaScript | Node.js | Express.js | PostgreSQL | Redis | REST APIs | JWT | OAuth 2.0 | Git

Software Engineer – Frontend, SmartGig Technologies Pvt. Ltd. Mar 2024 – Sep 2024
Project: Tellida - Project Management & Estimation Platform Hyderabad

Project Description

Tellida is a web-based project management and estimation platform designed to streamline project planning, RFP management, resource allocation, proposal generation, and subscription management through an intuitive and scalable user interface.

Key Responsibilities

- Developed reusable UI components using **Next.js**, **React.js**, and **Redux**.
- Built GraphQL-based modules for project planning and estimation workflows.
- Implemented authentication, role-based access control, and user onboarding.
- Integrated **Razorpay** payment gateway for subscription management.
- Developed AI-powered proposal generation using **ChatGPT-4**.
- Collaborated with backend developers to integrate GraphQL APIs and deliver responsive user experiences.

Key Contributions

- Dynamic Project Dashboards
- Project Estimation Workflows
- User & Client Onboarding
- Role-Based Access Control
- Razorpay Payment Integration
- AI-Powered Proposal Generation

Tech Stack: Next.js | React.js | Redux | Tailwind CSS | Shadcn UI

Technical Skills

Languages

- JavaScript (ES6+)
- HTML5
- CSS3

Backend

- Node.js
- Express.js
- REST APIs
- JWT
- OAuth 2.0

Database & Caching

- PostgreSQL
- Redis

Frontend

- React.js
- Next.js
- Redux
- Tailwind CSS
- Shadcn UI

Tools

- Git
- Postman

Education

Bachelor of Technology in Electronics and Communication
Swami Vivekananda Institute of Technology, Secunderabad **2019 – 2023** | **CGPA: 6.67/10**
